Non-Heavy Metal

Anti-Moth

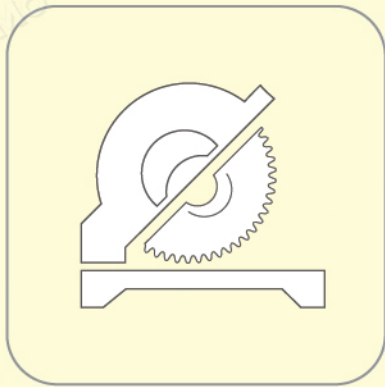

Easy to Install

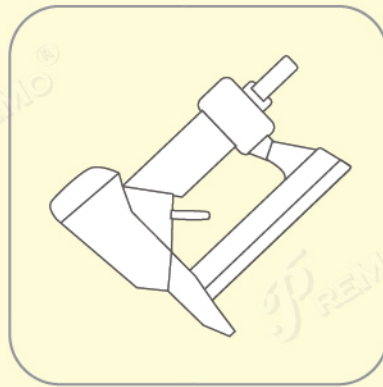

Eco-Friendly

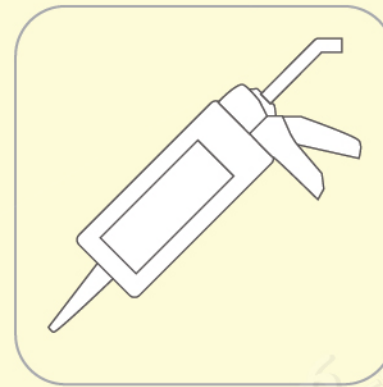

# SUGGESTED INSTALLATION TOOLS

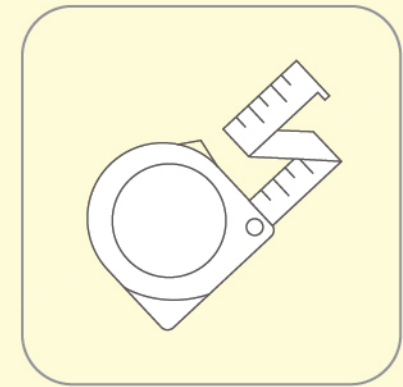

Angle-Adjustable  
Circular Saw

Headless Nail Gun

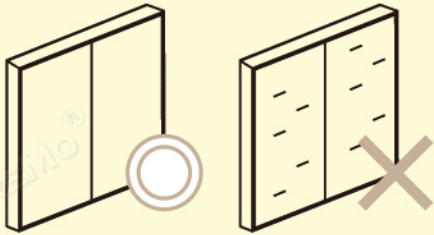

Maxbond Glue

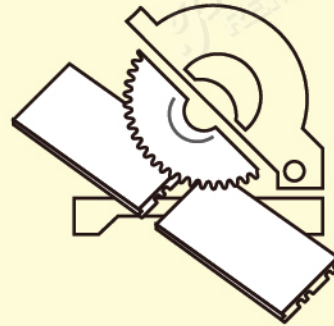

Measuring Tape

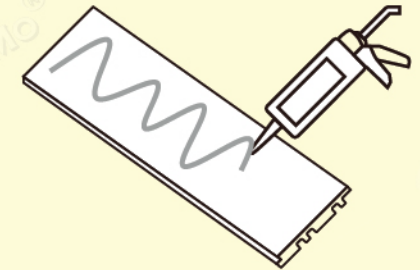

# SUGGESTED INSTALLATION STEPS

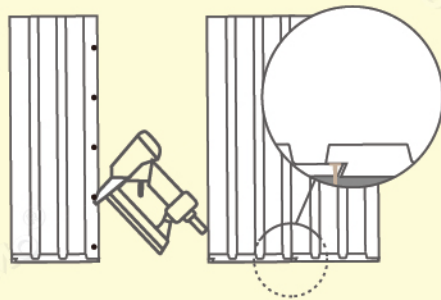

**1** Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

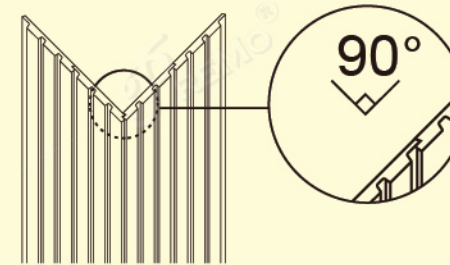

**2** Circular saw can be used for cutting.

**3** Apply nail free glue on the back of wall panel.

**4** Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

**5** For corner, combine the two grooves.
